

Product Localization Status

As of November 29, 2021

Is Brainshark available in languages other than English?

The Brainshark player and many of the platform pages have been localized

- HTML5 player: supports 29 languages (see below for list)
- Platform pages (the Brainshark user interface): Many pages have already been localized into 12 languages. See below for the currently localized pages and languages. The list will be updated as additional pages are localized.
- Brainshark mobile app: supports 12 languages for the app pages. The embedded player in the mobile app is English only.
- Brainshark Coaching Machine Analysis supports 12 spoken languages.

What does language support mean?

- Labels and messages will be displayed based on the user's browser locale.
- Customer created content and email notifications are not translated into other languages. They are displayed in the language in which they are created.

Localized pages by product area

Home, My Content, Favorites	The primary pages are available in 12 languages. Pages accessed from the primary page that lead to authoring are not yet localized.
