

Can I annotate files/share the annotations with others in the Hub?

Last Modified on 05/01/2020 2:15 pm EDT

Yes, users can annotate files on your device using the Hub app. User can use annotations on files that are present in stories. Annotations help to visually communicate ideas, share feedback, and collaborate with customers and co-workers. Users can also share the annotated files with others.

For more information, see [Sharing Annotated Files](#).
