

Getting Started with Chat for Web App

Last Modified on 05/01/2020 3:41 pm EDT

Use the Chat feature to exchange text messages, Hub stories and files with other Hub users. Users can share important messages instantly with colleagues via the Hub and send messages to a group by adding multiple recipients in a single chat conversation. Apart from the sharing option of the Hub, users use the Chat feature to share stories and files instantly.
