

# Installing Zunos on an iPhone or iPad

Last Modified on 10/23/2019 1:05 pm EDT

To install Zunos you will need;

1. A registered iOS device
2. An internet connection
3. An Apple ID and access to the Apple App Store

## Installing Zunos on your iOS Device

1. On your iPhone or iPad select the App Store icon.
2. Select the search function and type **zunos** into the search field and tap **search**.
3. Select Install and the app will automatically begin to download onto your device.

The Zunos icon will appear on your device and will appear as below.
