

Adding Video

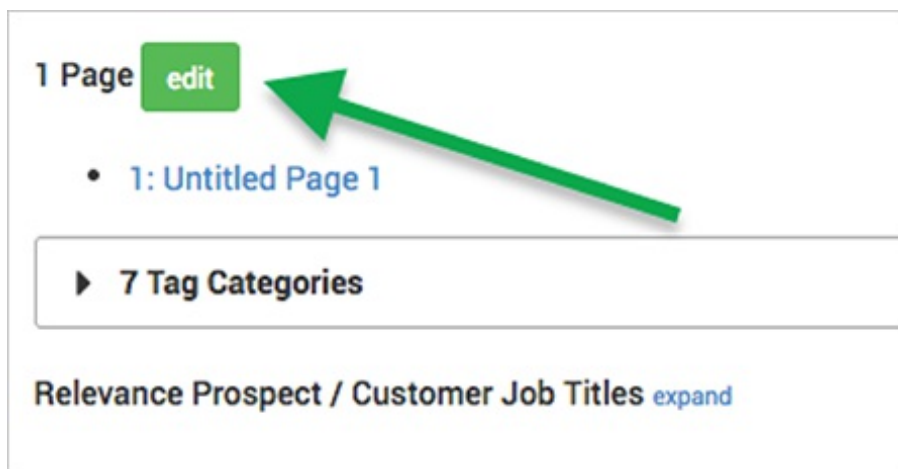

Last Modified on 01/07/2020 1:38 pm EST

Adding Video to your Pak is a great way to make content more dynamic and engaging. Make internal videos using your phone/tablet recording device and re-use professional videos created by your company to help get information across quickly.

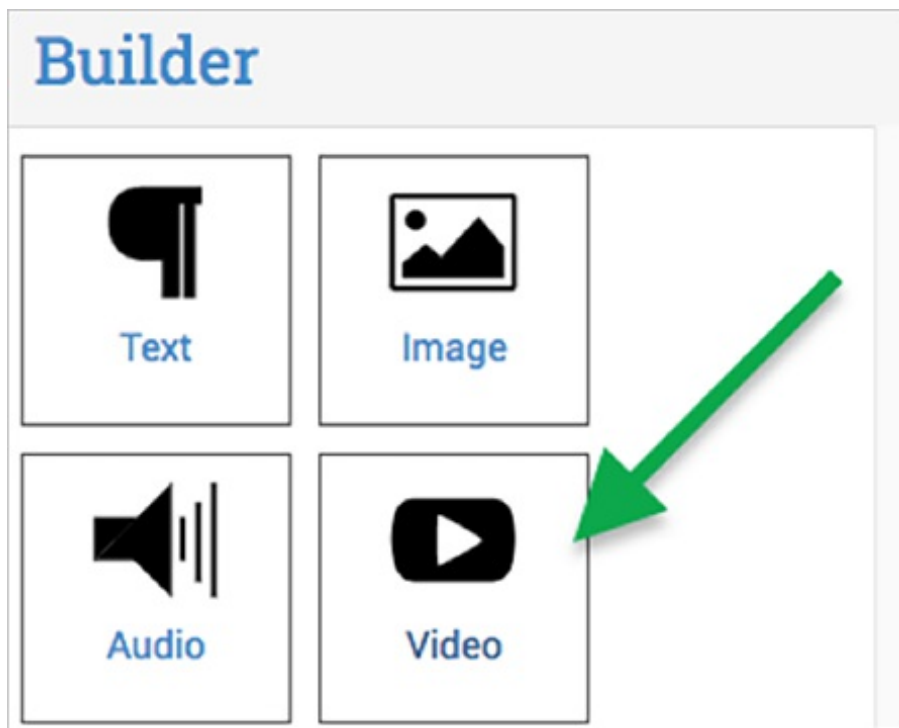

Veelo recommends you keep videos short as viewer attention tends to wane after three minutes. As well, you add a one sentence description above the video telling the viewer what they'll get from watching it.

Step by Step

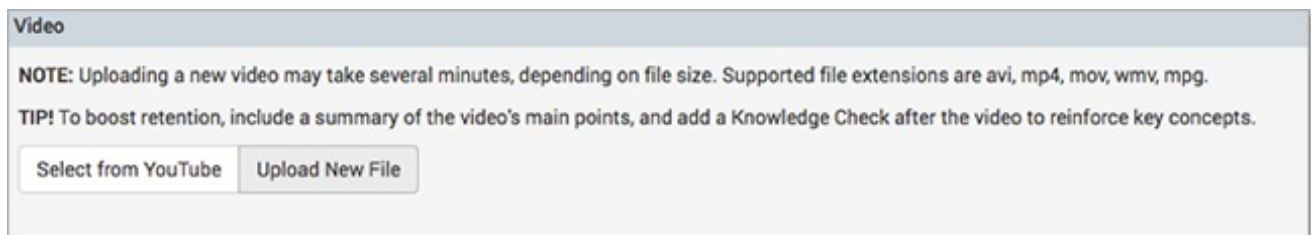

Click the **edit** button to open your Pak.

Click the **video icon** to open the frame.

To upload a file, click on **Upload File**. Then add the file.

Click **save**.

Note: uploading a video may take several minutes depending on the file size.
