

Adding Links

Last Modified on 01/07/2020 1:40 pm EST

Add links to your Pak when you want the user to be able to reference additional sources, examples or longer training.

Step by step:

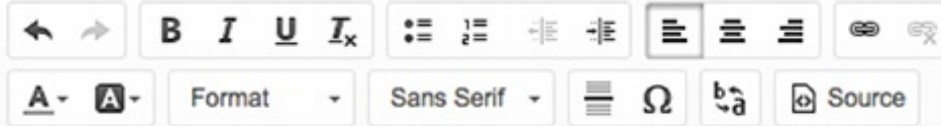

Click the **text icon** to open the frame.

Paste a copy of your link URL.

Text

TIP! Keep it short and snappy. Attention spans and retention tend to plummet after 350 words.

Examples or longer training:
