

Rewards

Last Modified on 07/30/2020 6:50 pm EDT

Administrators can grant digital rewards to users that complete an achievement or task. For more information on attaching rewards to accomplishments, see [Create and Manage Achievements](#).

Rewards offer incentive to completing tasks through more tangible compensations. This could be in the form of a code (i.e. gift card) or a code as a raffle "ticket" for a prize drawing for example. Digital Rewards can be issued immediately as tied to an achievement or task or can be manually sent out to a group of users via email template.
